Professional Summary

Software Engineering undergraduate with practical experience in backend development, API design, database management, and AI-powered applications. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Passionate about building reliable, scalable, and efficient software solutions.

Education

Raj Kumar Goel Institute of Technology, Ghaziabad	2023 – Present
Bachelor of Technology in Computer Science and Engineering	CGPA: 8.75
St. Joseph's Academy (ISC)	2023
Class XII	89%
St. Joseph's Academy (ICSE)	2021
Class X	87%

Technical Skills

Languages: Java, SQL

Backend: Spring Boot, Spring Security, REST APIs, JPA, Hibernate, JWT Authentication

Databases: MySQL, PostgreSQL

AI Technologies: Spring AI, Ollama, Google Gemini API

Tools: Git, GitHub, Docker, Maven, Postman, Swagger/OpenAPI

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

Secure Fitness Tracker Backend API

- Developed secure REST APIs using Spring Boot and Spring Security.
- Implemented JWT-based authentication and authorization.
- Integrated PostgreSQL using JPA and Hibernate.
- Containerized the application using Docker and deployed on Render.
- Documented APIs using Swagger/OpenAPI and tested endpoints using Postman.
- Followed layered architecture and backend development best practices.

AI-Powered Email Reply Generator

- Developed a full-stack AI-powered email reply generation system.
- Built RESTful APIs for frontend-backend communication.
- Integrated Google Gemini API to generate context-aware email responses.
- Applied prompt engineering techniques to improve response quality.
- Deployed frontend and backend applications on cloud platforms.

Certifications

• Build AI Apps with Spring AI, OpenAI, Ollama & Spring Boot – Udemy	Jan 2026
• Java Backend Development Bootcamp – GeeksforGeeks	Dec 2025
• Time Complexity – CodeChef	Feb 2024
• Web Development – Internshala	Oct 2024

Achievements

- Solved 200+ Data Structures and Algorithms problems across coding platforms.
- Strong understanding of Java Collections Framework and Backend Development.
- Participated in coding contests and technical events.

Leadership & Activities

- Secured 2nd Prize in Creative Writing Competition.
- Active member of the College Dance Society.
- Participated in coding competitions, cultural events, and collaborative team activities.
